PROFESSIONAL SUMMARY

Self-taught Full Stack Developer with hands-on experience building modern web applications using Next.js, React.js, Node.js, Express.js, MongoDB, TypeScript, and Tailwind CSS. Experienced in developing full-stack e-commerce platforms, SaaS applications, REST APIs, authentication systems, and responsive user interfaces. Strong understanding of modern web development practices, scalable application architecture, and clean code principles. Passionate about solving real-world problems through technology and continuously learning new tools and frameworks.

TECHNICAL SKILLS

- MERN Stack
- Next.js
- TypeScript
- Git & GitHub
- MongoDB
- REST API
- Tailwind CSS
- Responsive Web Design

PROJECTS

FULL STACK E-COMMERCE PLATFORM

- Tech Stack: Next.js, TypeScript, Node.js, Express.js, MongoDB, Tailwind CSS
- Developed a complete full-stack e-commerce platform with responsive and modern user interface.
- Implemented user authentication and authorization for secure account management.
- Built product listing, product details, shopping cart, and checkout functionalities.
- Designed and developed RESTful APIs for product, user, and order management.
- Integrated MongoDB database for efficient storage and retrieval of application data.
- Applied reusable component architecture and clean coding practices.
- Optimized application performance and responsiveness across devices.

SHOPP CREATION & MARKETING SAAS PLATFORM (ONGOING)

- Tech Stack: Next.js, TypeScript, MongoDB, Tailwind CSS
- Building a SaaS platform that enables creators to create, manage, and market online products.
- Developing secure authentication and user management features.
- Designing dashboard interfaces for content and product administration.
- Implementing scalable project architecture using Next.js App Router.
- Integrating database-driven workflows for content management and user interactions.
- Following modern software engineering practices for maintainability and scalability.

EXPERIENCE

FREELANCE FULL STACK DEVELOPER

- Self-Directed Projects | 2024 – Present
- Designed and developed full-stack web applications using MERN Stack and Next.js.
- Built responsive and mobile-friendly user interfaces using React and Tailwind CSS.
- Developed REST APIs and backend services using Node.js and Express.js.
- Integrated MongoDB databases for data management and application functionality.
- Managed source control and project collaboration using Git and GitHub.
- Deployed web applications using modern hosting platforms and deployment workflows.
